Captain America, Robert Pirsig and You

There is little point in going to Sturgis, SD, in August of 2009, unless, of course you are planning to ride there on a Honda Superhawk CB77, just like Robert Pirsig would.

This year's event will feature an exhibition - housed in its own dedicated 7000 s.f. pavilion - themed around "Rebel Rousers - Motorcycle Icons that Inspired Us to Ride."

If you are inspired (and let's face it, who amongst us isn't) you can even have your own Honda Superhawk featured in the exhibit. No kidding! (The catch - the bike would have to be left on display from Aug. 1 through August 7, when the show closes.)

If interested, please contact [Michael Lichter](#), the curator of this event. It's going to be BIG!
