

LA County Choprods New Products

Posted on April 2nd, 2009 by Lisa Ballard

Here are two killer custom parts from Gard Hollinger at LA County Choprods. Gard is part of the Limpnickie Lot Crew! He is introducing his new Mooneyes Oil Filter and a great looking battery box. Please go to www.lachoprods.com to order or to see the complete line of parts.

This is the famous Mooneyes 3 quart "Chopper" oil tank but after years of begging we finally got them to configure the fittings to our specifications allowing for better fitting placement when mounted lengthwise as on all

"Choprods" that feature this tank. The tank is designed to mount on the left side of the bike and positions the oil pick up fitting to optimize oil volume and feed. Easily mounts when using the cast aluminum brackets (sold separately) and our "Side Mount Battery Box". Price: \$275.00

Go to www.lachoprods.com or call (310)353-2467

Our "Side Mount" battery box is designed to allow a standard "Softail" size battery to be mounted on the right side above the transmission. The box mounts in three places and uses rubber isolated mounts for vibration resistant installation and includes mounting provisions to accommodate

the Mooneyes 3 qrt. "Chopper" oil tank and mounting brackets. Available in raw steel or Solar Black powder coated with your choice of steel or leather battery strap, comes with mounts and hardware. Price: \$175.00
