Stevenson's Cycle GL Special

Published by Cyril Huze February 5th, 2009 in *Builders and Customs*.

Very representative of what builders have built during these last 5 years, this "GL Special" built by Steve Broyles Senior. & Junior of [Stevenson's Cycle](#) just won The Canada Cup top Award at the 2009 Motorcycle Supershow held January 2 to 4 in Toronto. Not since 1996 has a U.S. bike won this competition. Money was spent on an S&S 93ci, a Baker Torque Box transmission, a Stevenson's Springer front end, Weld racing wheels (23" front, 18" rear), an LSD BDL primary, a custom Stevenson Cycle glass oil tank, a Deviant, Hand Grips & Foot Pegs, a hand tooled seat by Duane Ballard, etc. [Stevenson's Cycle](#) (pictures Horst Rösler).

Correction Feb. 5, 09 at 9.33 AM. Belt Drive System by [Evil Engineering](#).
