### New Controls By Stevenson's Cycle

*Published by Cyril Huze April 23rd, 2009 in Builders, Controls, Customs and Editorial.*

These new controls conceived by Steve Broyles Sr. of [Stevenson's Cycle](#) are made of steel instead of billet aluminum. Controls are available with left side shifter or hydraulic foot clutch and are sold in sets or separately. They fit all 4-speed frames, as well as Softails up to 99. They will fit 2000 and up Harleys with an adapter kit. Choose your color combination: they are available in all black, all chrome, chrome and brass, black and brass, chrome and black, black and chrome and knurled or smooth brass toe pegs. Of course, you can also powder-coat them any color matching your paint job with any color. The footpeg covers can be used on any 1" handlebars. Contact Steve in Michigan on my behalf 734-641-2200.
