Stevenson's Cycle just launched their fully customizable foot controls.

The foot controls are available in all black, all chrome, chrome and brass, black and brass, chrome and black, black and chrome and knurled or smooth brass toe pegs. They are sleek and stylish all on their own. They are also fully color customizable and can be powder-coated with any color.

The coolest option the foot controls offer riders is the fact that they are designed to fit any standard handle bar grip. This gives the rider the ability to switch foot control grips for a color change or wear-and-tear. The grips provide a sticky surface for a shoe sole to rest on and rubber/neoprene offer some vibration dampening.

The controls are available with left side shifter or hydraulic foot clutch and are sold in sets or separately. Starting at \$516, the controls fit all 4-speed frames, as well as Softails through 1999. They will fit 2000 and up Harleys with an adapter kit.

Stevenson's Cycle is known for their innovative parts, custom one-off motorcycles and motor work. They have been servicing, repairing and customizing Harley bikes since 1969. They intensely focus on making their customers happy and satisfied and on staying at the head of the pack in the motorcycle industry. They are located at 4653 Wayne Road in Wayne, Michigan (48184).
